- Custom spill kits
- Comprehensive line of absorbents
- Flexible containment
- Drum and container storage
- Fuel and water storage
- Secondary containment equipment
- Marine spill equipment
- Personal protection equipment

## PACIFIC SPILL SUPPLY

Our complete line of spill kits are 100% customizable to suit our customer's needs. This extends from the contents of the kit to the markings on the container. Our experienced manufacturing team can design and make fully branded kits for you or your customers.

Our spill kit bags are all manufactured in house from **heavy duty high visibility industrial fabrics**. These kits feature an ID tag which **indicates product description and SKU for easy identification**. These tags also contain customer/vendor information and logo for **ease of re-ordering**. This information is covered with a clear waterproof vinyl and is permanently welded to the bag itself.

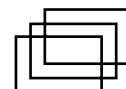

**No Minimum Order Quantity**

Inside the bagged spill kit, the contents themselves are sealed in a **tamper proof bag** to improve durability and extend the shelf life of the contents. Since all kits are custom build, the contents may be changed, replaced, or removed. Once the inside bag has been opened, this is an indication that the kit has been used and may need restocking. Individual kit contents can be re-ordered, or the entire contents of the kit can be provided (again in a sealed bag).

**All Spill Kits Made In Canada**

**100% Customizable**

All kits contain a complete printed contents list, as well as spill kit instructions. Static larger spill kits have many of these same options, as does our range of mobile large kits.

# LARGE SPILL KITS

Mobile Bin

Spill Chest

Poly Drum

Overpack

## Mobile Bin Kits (capacity up to 200L):

A necessity for large facilities, to enable rapid response to liquid spill emergencies. High capacity, can be placed in most strategic location, but easily moved to spill.

# MEDIUM SPILL KITS

Fitted Bag

Flat Bag

Vinyl Bag

## Fitted Bag Kits (capacity up to 40L)

Duffel style bag with shoulder strap and three sided zipper closure. Commonly includes items such as sorbent pillows or specialty items with standard complements of sorbent pads and socks, and PPE. Emergency Spill Kit / Custom Logo silkscreening on all bags.

## Flat Bag Kits (capacity up to 60L)

Large flat style bag with dual handles and single sided zipper closure. These large bags can accommodate considerably more pads and socks than our smaller kits. These kits also feature extra items such as drain covers, neutralizers, specialty granular absorbents, and other items not commonly found in smaller spill kits. Emergency Spill Kit / Custom Logo silkscreening on all bags.

# OPTIONS & EXTRAS ▼

## Pillows

Use under machines and leaky hydraulic hoses or wedge in corners cramped for space. Pillows are easy to place in hard to reach areas.

## Socks

Sorbent socks are non-linting and will absorb approximately 25 times its weight. Socks contain 100% premium quality polypropylene fill wrapped in a knitted sleeve.

## Sorbent Booms

Use sorbent booms on land or water to contain large spills.

## Sorbent Pads

Available in Standard or Premium materials – for use with either Oil, HazMat or Universal applications.

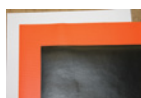

## Personal Protective Equipment (PPE)

► Nitrile Gloves and Neoprene Gauntlets ► Splash Goggles and Full Face Protection ► Disposable Tyvek Coveralls

## Other Options

**Bonding Agents**  
(Epoxy, Plug & Dyke)

**Drain Covers**

**Scene Control**  
(Caution Tape, Pylons)

**Granular & Remedial Agents**

**Chemical Neutralizers**
