

DRAIN & STORMWATER MANAGEMENT

ULTRA-DRAIN SEALS

Stop spills from going down the drain.

The Ultra-Drain Seal is a valuable addition to any emergency response plan, spill kit, SPCC or stormwater management program.

- The storm drain cover is constructed with a flexible, non-absorbing material and reinforced tear resistant mesh.
- Reinforcing mesh is sandwiched between layers of polyurethane – increases durability and resistance to tearing.
- Resists oil, water, and most aggressive chemicals, cleans with soap and water.

DRAIN & STORMWATER MANAGEMENT

ULTRA-DRAIN GUARDS

Keep sediment and other pollutants from entering the water system with these catch basin inserts.

- This simple, yet specifically designed and engineered geotextile fabric catch basin insert can be installed in most drains. The heavy duty material removes contaminants like litter, sand, and oil from stormwater flow.
- Installation is quick and easy – simply raise the grate, place the drain guard over the opening and carefully lower the grate back into place, pinching the fabric in place to make the unit secure.
- Curb Insert Models also available for use with combination catch basins with a street grate and curb opening. Heavy-duty tension rod secures drain guard inside curb inlet – stopping sediment and other contaminants from entering curb portion of storm drain. Fits grate sizes up to 40" x 40" and curb inlets up to 60" wide.
