

# COMPACT WALL BERM

Easy Assembly. No Tools Required

Compact Size for Easy Storage

On Site Spill Containment

This specialized berm is compact, lightweight, and portable - it features struts in sleeves along the sidewall.

### Design Features:

- Fully welded construction made from 28 oz/yd2 (950 gsm) COPOLYMER 2000 fabric, black
- Berm sidewall struts are permanently attached, no parts to misplace or lose
- Compact design folds up for easy storage on trucks / hazmat vehicles
- 12 inch high walls provide high storage volume (up to triple capacity of similar footprint foam side wall berms)

Colours / Material

■ Black 28 oz Copolymer 2000

12" & 15" sidewalls sizes available

Custom sizes & configurations available upon request

Epa Clean Water Act Regulation 40 Cfr 112.7 + 264.175

Custom logo / silk-screening available

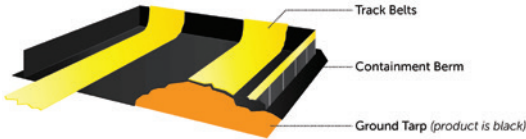

Optional drain fittings and handles

# ACCESSORIES

Spill containment protection applications are often unique – aside from offering a complete range of custom berm sizes and configurations, we can build to meet your specific requirements.

In addition, we offer accessories which include:

### Track Belts

Track Belts – Protect berm from drive over wear and tear.

### Ground Sheets

Use these to protect your berm from rocks, debris, and other objects.

### Hose Stands

Hoses stands – keep hoses from damaging sidewalls and reducing your berm containment capacity.

### Self Bailers

Passively filters hydrocarbons while allowing accumulated rainwater to discharge. Simple installation.

# FOAM SIDE WALL BERM

Folds Up For Compact Storage

Custom Silkscreening Available

3 Fabric Options To Choose From

These collapsible secondary containment berms can be used to contain spills and leaks from vehicles, machinery, tanks, drums and other industrial equipment.

## Design Features:

- ▶ RF welded construction made from your choice of three (3) heavy duty industrial fabrics
  - > 22 oz/yd<sup>2</sup> (750 gsm) PVC coated polyester, yellow
  - > 28 oz/yd<sup>2</sup> (950 gsm) PVC coated polyester, orange
  - > 30 oz/yd<sup>2</sup> (1020 gsm) Chemical & Hydrocarbon Resistant polyester, black
- ▶ Lightweight, flexible, compact – folds up for storage and easily portable for transport
- ▶ Simple and easy to clean and maintain, re-usable  
No set up – unfold and use immediately !

## Colours / Material

- Yellow 22 oz PVC
- Orange 28 oz PVC
- Black 30 oz Chem Resistant / XR5

# L - ROD BERM

Fold Down L-Rods For Easy Entry / Exit

6, 12, or 15 Inch High Berm Sidewalls

Rapidly Set Up With No Tools

These L-Rod secondary containment berms are fully collapsible, and can be rapidly deployed. Aluminum L-rods are used at regular intervals to support the walls of the berms, but are easily folded to allow for entry/exit of vehicles or machinery.

## Design Features:

- ▶ RF welded construction made from 30 oz/yd<sup>2</sup> (1020 gsm) Chemical & Hydrocarbon Resistant polyester fabric, black
- ▶ Aluminum L-Rods used to support the berm walls, but easily foldable for entry / exit and for storage
- ▶ Simple and easy to clean and maintain, re-usable

## Colours / Material

- Black 30 oz Chem Resistant / XR5

# RAPID RISE BERM

Drive In/Out, No Set Up

Foam Ring Rises With Liquid Level

Simple And Easy To Deploy

This specialized berm allows for easy entry and exit of vehicles or equipment. Sidewalls remain down during normal operations, loading and unloading. Vehicles and equipment can drive in and out with no set-up or take-down required. In the case of a spill, the foam ring around the top perimeter of the berm rises with the level of the spilled liquid

## Design Features:

- ▶ Fully welded construction made from 28 oz/yd<sup>2</sup> (950 gsm) COPOLYMER 2000 fabric, black
- ▶ Lays flat until spill occurs – then foam ring around top perimeter will rise with fluid level
- ▶ No tripping hazards, simple and easy to deploy, clean and maintain
- ▶ 12 inch high walls provide high storage volume (up to triple capacity of similar footprint foam side wall berms)

## Colours / Material

- Black 28 oz Copolymer 2000
